Lunch & Learn

Show your staff you care about their health

Magnolia Corporate Wellness is proud to offer our FREE Lunch & Learn series. We provide lunch and an energetic lecture by our very own Dr. David Morris. Dr. Morris has logged 200+ hours of continuing education on the topics of health and nutrition and has a passion for teaching others.

While your staff eats lunch, they will enjoy an educational presentation about health, wellness and how to find the right road to healthy living. We offer several informative lectures to help your employees discover what true wellness looks like.

It's simple, fun and FREE.

No strings attached; this is our way of meeting people in our community and sharing our passion for healthy living. Magnolia Corporate Wellness and Dr. Morris both desire to teach others about good and positive choices that lead to improved health and well-being.

Don't take our word for it...

"Your knowledge and your experience were exceptional and we really took it all to heart." - *Sonya M, Nissan NA*

"We had a lot of fun and learned a lot. Dr. Morris is very knowledgeable and a great teacher!" - *Mindy P, RN MTCS*

"Lunch while you learn! We were all challenged to better health. Thanks Magnolia! - *Jenny W, Guaranty Trust*
